

"Small But Big" Tiny Villa—A1

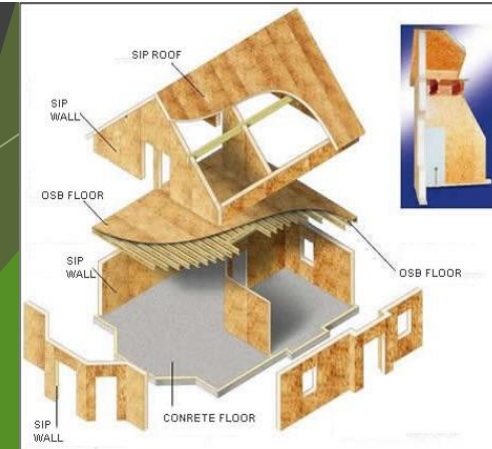

Our Features:

- More professional designs
- More energy saving building materials
- Faster construction speed

The "Small But Big" Tiny villa—A2 is based on the Scandinavian vacation home design concept.

The exterior dimensions are 4m X 5m, total construction size is **24 sq.m**, and can be built with structural insulated panels(SIPs), which are fast and energy-efficient to assemble on site.
