

Quacent Tiny Villa

“Small but Big” Series—Model: T1

A mountain resort house design from Taiwan, making full and efficient use of limited space. A family with 3 or 4 members can live a harmonious life in this fairy tale world.

The house covers an area of 25.2 m², including a living room, a bathroom and a Loft on the second floor.

Floor area: 7mx3mx3.7m

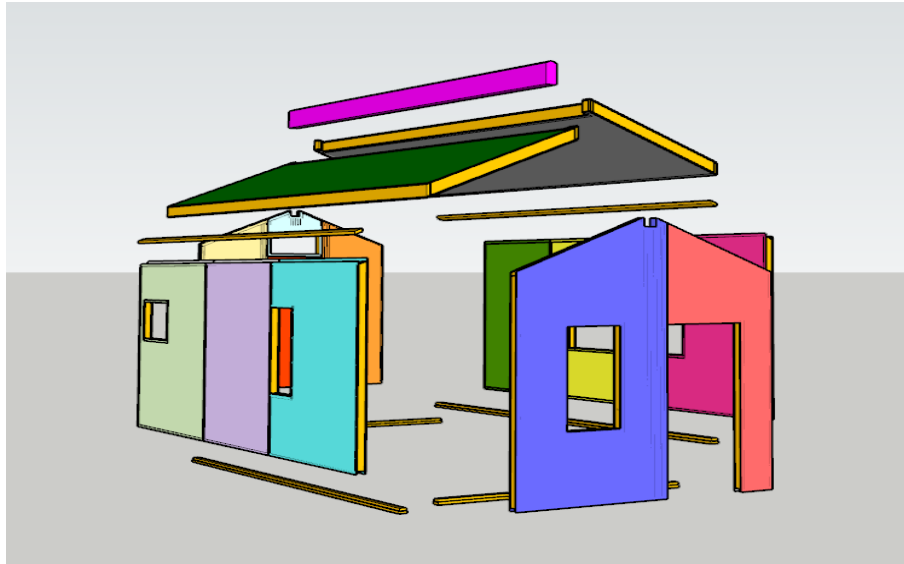

Large area of wood cladding is applied to the exterior wall, combines with wooden door & window trim, gives a feeling of quiet, elegant and delicate. This faithfully interprets the design theme of returning to nature.

The interior design adopts the American retro pastoral style. The wooden dado and barn door designs give people a kind of warm pastoral experience. The folding bed greatly increases the indoor space.

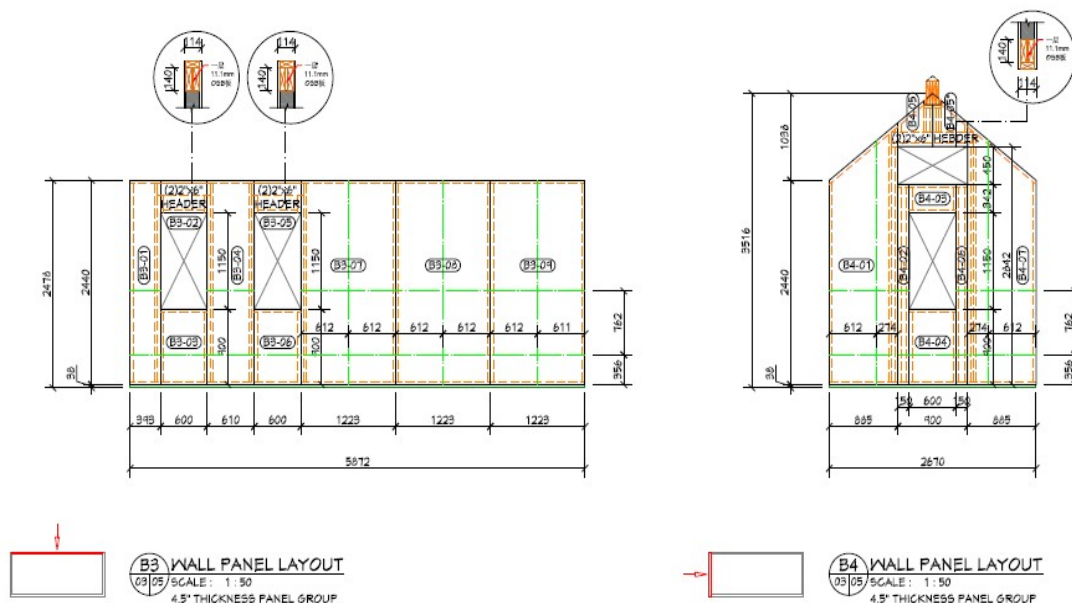

This design style reveals the individuality, makes user experience more comfortable and closer to the nature, and lets visitors and the homeowner feel more intimate.

Shell package: Wall: 4.5" (114mm) SIPs, R-value 16; Roof: 6.5" (165mm) SIPs, R-value 24, glulam beam and other accessories necessary for shell.

The structure/shell is realized through SIPs panelized system, full structure can be erected within 1 day by a team of 4 unskilled workers. All panels have been precisely cut according to drawings and numbered for easy& quick assembly.
